Information provided in this booklet is believed to be correct at the time of printing (June 2013). However, several factors can affect if a course will run and whether the costs listed are accurate. These include: sufficient student numbers, unforeseen costs and whether a school is approved to deliver by a Registered Training Organisation.
For more in-depth information on courses and information on how to enrol see your school’s VET coordinator.
Frequently Asked Questions

What is VET?
Vocational Education and Training is industry specific and nationally recognised training that can be undertaken while a student is still at school.

What are the Inner South Schools?
The Inner South Cluster comprises the ten DECD schools listed on the back page of this brochure.
These courses are designed to meet the training needs of students from this cluster. Students still have access to a range of VET courses from other clusters, TAFE and private Registered Training organisations. Please see your school’s VET Coordinator for more information.

Can VET Count toward SACE?
VET Programs are recognised within the SACE, providing credits toward the completion of Stage 1 and/or Stage 2. Please see your school’s VET Coordinator for more information.

What are the benefits of choosing VET?
- Gaining a nationally recognised qualification whilst completing your SACE
- Getting a head start in your chosen career
- Providing opportunities to learn on-the-job through workplace learning
- Gaining the skills and knowledge that employers are looking for
- Providing pathways to apprenticeships, traineeships, further training or direct employment.

How do I apply for a Regional VET Program?
Step 1: Choose the course from this booklet that you are interested in applying for
Step 2: See your school’s VET Coordinator for a copy of the enrolment form
Step 3: Complete and sign the enrolment form, making sure to carefully read your rights and responsibilities, and return to your VET Coordinator.
Step 4: You will be advised of the outcome of your enrolment during Term 4. Please note that some courses may require you to attend an interview or information session prior to confirmation of enrolment.
How much will it cost me?
Course costs vary. Your VET Coordinator will provide you with exact costing during the course counselling process.

How will I get there?
All students are required to arrange their own transport to VET Courses and Work Experience.

Will I need to do Work Experience as part of my VET Course?
Some VET Programs require students to complete Work Experience as part of their training in a real or simulated work environment. These placements provide valuable training and mentoring to develop your technical and employability skills.

What SACE subjects fit with my VET Program?
A SACE subject highly recommended for VET students is Stage 1 and 2 Workplace Practices. Students who gain the most from this subject are usually involved in a VET program, part time work, apprenticeships or traineeships, volunteering or community work. The course content of Workplace Practices compliments and adds value to what you are learning in your training or other work.

How will my VET Course impact on University and TAFE entry?
Some fully completed VET Courses, at Certificate III level or above, can contribute to your Australian Tertiary Admissions Rank (ATAR). TAFE SA recognises SACE completion as meeting the entry requirements for most of its courses. It also considers a variety of other qualifications (including VET) and experiences in its entry selection processes.

For more information on University or TAFE entry, please see your school’s VET/SACE Coordinator.

Will doing a VET Course affect my other subjects?
You may miss lessons for other subjects whilst attending your VET program and work experience. You will need to be well organised and work closely with your subject teachers and VET Coordinator to ensure this impact is minimised.
School Based Apprenticeships

A School Based Apprenticeship (SBA) is a great way to start your career while completing your SACE. SBAs enable students from years 10 - 12 to combine paid work, training and school, while working towards both the SACE and a nationally recognised qualification. Students undertaking an SBA commence work under a Contract of Training which is facilitated by the Trade School Apprenticeship Brokers.

Before commencing an SBA, it is recommended that you have participated in a VET program. This demonstrates to any potential employers your genuine interest in the area and that you have already learnt a variety of job specific skills.

Some benefits of undertaking a School Based Apprenticeship are:

• Earning money whilst still at school
• Working towards or gaining a nationally recognised qualification
• Gaining hands-on experience in your chosen career
• Earning SACE credits as part of your training, and completing your SACE
• Starting your career whilst still at school

Our Apprenticeship Brokers work with students from each of our Inner South schools and help to: prepare students for employment, connect students with potential employers and complete the Apprenticeship sign-up process.

Training Guarantee for SACE Students (TGSS - Skills for All)

Are you a young person who knows what vocational pathway you want to do beyond school and have already done some VET at school? You may be eligible for a funded training pathway!

The Training Guarantee for SACE Students scheme can help put students on a rewarding vocational career and jobs pathway.

The scheme enables selected SACE students to undertake VET training at an approved Registered Training Organisation (RTO) in qualifications prescribed by the Department of Further Education, Employment, Science and Technology (DFEEST) and guarantees them a place to finish the qualification they have started after completing their SACE.

The training will be subsidised by DFEEST and will significantly reduce the costs of training for young people. Training at Certificate II level is fully funded by DFEEST so there will be no tuition fees for students. Certificate III training is up to 80% funded.

To be eligible the student must:

- be 16 years of age or older and be undertaking SACE
- have undertaken a substantial amount of VET as part of their SACE
- participate in relevant work placement - at least 140 hours
- plan to transition to an RTO in the year after finishing SACE to complete the Certificate III (or higher)
- be clearly intending to pursue a vocational career related to the qualification.

The school must:

- screen, select and counsel students
- prepare and maintain a formal Education and Training Plan (ETP) that is co-signed by the student, parent/guardian, principal and the selected RTO
- organise and monitor relevant work placements.

If you are interested in this opportunity, visit www.skills.sa.gov.au and speak to your VET Coordinator.

For more information, please contact our Industry Skills Manager:

Course Description
This course will introduce students to the career opportunities for 3D artists, animators and designers. After successful completion of the first year, Certificate II in Creative Industries can be awarded. In the first year students are introduced to 3D animation and film making, including: modelling, texturing, animation, lighting, rendering, character design and environment design. In the second year students use 3D animation in game making and develop a game from initial concept to playable demo. Using the Unity 3D game engine, art and scripts, students design game play mechanics and refine them while learning the entire development pipeline.

Course Commencement Date: Week 2, Term 1 (Wednesday, February 5)
Length of Course: 2 years (Certificate II can be awarded after successful completion of 1st year)
Day & Time: Wednesday 1.30pm to 4.30pm
Work Experience: Not compulsory but recommended
Special Requirements: Students are required to wear their school uniform and remain on campus.
Course Pre-Requisites: Knowledge of basic Photoshop is an advantage.
Course Pathway: This can be used as a pathway to the Diploma of Interactive Media, Advanced Diploma of Professional Games development or Advanced Diploma of Screen and Media. For more information please see: www.skills.sa.gov.au
Certificate III in Media - Animation for Games, Film and Multimedia

Course Description
This course is a comprehensive package aimed at students wanting to develop skills and knowledge related to the games, film and multimedia industries. It has been developed in consultation with Adelaide’s leading animation companies and has regular professional industry contact. Students will learn a range of animation styles and techniques using industry standard 2D and 3D software. Students will also learn the production process; how to design characters, create sound tracks and present their work to meet an industry brief.

The course can contribute to the majority of Stage 2 SACE credits.

Course Commencement Date: Week 2, Term 1 (Tuesday, February 4)
Length of Course: 1 year, two days per week
Day & Time: Tuesday and Thursday 9.00am to 3.15pm
Work Experience: Not compulsory but recommended
Special Requirements: Interview with the trainers to demonstrate a genuine interest in digital media industry skill development.

Course Pre-Requisites: Students should have a genuine interest and drive to build a pathway into the animation, games, film, special FX, and multimedia industries.

Course Pathway: Further Education Pathways: Certificate IV in Screen and Media, Diploma and Advanced Diploma in Screen and Media, Diploma of Interactive Media.
Employment Pathways: Graphic Designer, Web Designer, Illustrator, Animator.

Course Description
Doorways 2 Construction is a general construction course providing students with the ability to develop knowledge and skills in all areas of the Building Industry.

This course is held one day per week for students who are completing Stage 1 or 2 SACE.

The newly constructed Trade Training Centre at Pasadena provides a modern, well equipped work place that allows training to be delivered in an industrial context.

Course Commencement Date  Week 2, Term 1 (February 4, 6 or 7)
Length of Course  1 year
Day & Time  Tuesday, Thursday or Friday 10.00am to 4.00pm.
Work Experience  3 weeks in total is required
Special Requirements  Students are required to attend an interview with the Trainer in order to demonstrate their interest and suitability.
Course Pre-Requisites  Students must have completed or be in the process of completing Year 10 and 11 Design and Technology.
Course Pathway  Completion of this qualification provides the pre-requisite requirements for Doorways Plus and may assist students in gaining employment within the Building, Construction and Technology Industries. For more information please see: www.skills.sa.gov.au

Course Description

Doorways 2 Construction Plus is a General Construction Course which will assist students in gaining skills and knowledge in most areas of the Building Industry. This course is held one day per week for students who have successfully completed Certificate I in Construction - Doorways 2 Construction.

Students who have completed Doorways 2 Construction can apply for this course under the Training Guarantee for SACE Students (TGSS) to be eligible for the majority of training costs. For more information please see: www.skills.sa.gov.au

Course Commencement Date  
Week 2, Term 1 (date to be advised)

Length of Course  
1 year

Day & Time  
To be advised

Work Experience  
15 days in total is required

Special Requirements  
Students may be required to attend an interview with the Trainer in order to demonstrate their interest and eligibility.

Course Pre-Requisites  
Successful completion of Certificate I in Construction - Doorways 2 Construction. Students must be in SACE Stage 1 or 2.

Course Pathway  
Successful completion of this course may assist students in gaining employment within the Building, Construction and Technology Industries. For more information please see: www.skills.sa.gov.au
Certificate I in **Doorways 2 Construction - Plumbing**

**Registered Training Organisation**  
Plumbing Industry Association of South Australia

**Delivery Site**  
Unley High School

**Qualification Title**  
Certificate I in Construction

**Course Code**  
CPC10111

**Number of SACE Credits**  
Up to 40 Credits at Stage 1

</tr>
</tbody>
</table>

**Course Description**

This qualification will focus on the introductory skills a plumbing apprentice would require. It has been designed by the Plumbing Industry Association of South Australia and is offered in conjunction with Unley High School. Students will learn skills that have industry relevance and will also undertake their White Card as part of the course.

**Course Commencement Date**  
Week 2, Term 1 (Thursday, February 6) or Week 9, Term 2 (Thursday, June 26)

**Length of Course**  
1 Semester

**Day & Time**  
Thursday 8.30am to 4.00pm

**Work Experience**  
2 weeks in total is required

**Special Requirements**  
Students will be required to wear correct safety equipment, including steel capped boots, long pants and a Hi-vis shirt.

**Course Pre-Requisites**  
Students must be interested in pursuing a career in the Plumbing Industry.

**Course Pathway**  
Successful completion of this course may lead to a school based apprenticeship or full time apprenticeship within the Plumbing Industry. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)

**Course Description**

This course provides excellent insight and background for students considering a career in plumbing. Thebarton is a senior secondary college that is centrally located and easily accessible by public transport. It has modern well equipped workshops that allow training to be delivered in a workplace context. There is a strong emphasis on safety and students will use a range of hand and power tools and equipment to undertake oxy-acetylene welding processes and sheet metal work processes associated with roof plumbing. Students will also develop a range of basic carpentry and concreting skills. Importantly, skills learnt can be transferred to a wide range of career options.

**Course Commencement Date**  Week 2, Term 1 (Friday, February 7)

**Length of Course**  1 year

**Day & Time**  Friday 8.40am to 3.15pm

**Work Experience**  Four weeks in total is required (two blocks of two weeks during school holidays)

**Special Requirements**
- Students will need to provide steel capped safety boots for work placements.
- Students will need to provide their own transport to and from work placements.

**Course Pre-Requisites**
- Some workshop experience in a Design and Technology course at Year 10 level or beyond and an interest in practical work and hand skills.

**Course Pathway**
- Leads to possible apprenticeship or employment in the industry. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)

**Course Description**
This course is a continuation of Certificate I in Plumbing. The course has been developed in conjunction with the Plumbing Industry Association of South Australia and aims to provide an entry point for students wishing to gain an apprenticeship. The course comprises classroom based study, workshop and outdoor practical activities. It has a strong emphasis on safety and will give students the necessary skills and knowledge to apply for apprenticeships.

**Course Commencement Date**  
Week 2, Term 1 (Tuesday, February 4)

**Length of Course**  
1 Year

**Day & Time**  
Tuesday 8.30am to 4.00pm

**Work Experience**  
3 weeks in total is required

**Special Requirements**  
Students will be required to wear correct safety equipment, including steel capped boots, long pants and a Hi-vis shirt.

**Course Pre-Requisites**  
Students must be interested in pursuing a career in the Plumbing Industry and have successfully completed Certificate 1 in Construction.

**Course Pathway**  
Successful completion of this course may lead to a school based apprenticeship or full time apprenticeship within the Plumbing Industry. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)
Certificate II in Electronics

Course Description
This Industry Pathways Program has been designed to allow students an opportunity to experience the training and work necessary to succeed in the Electrotechnology Industry. Units of Competency have been chosen in consultation with TAFE SA to allow students wishing to continue their studies the most appropriate pathway into a Pre-Vocational course. Students will be learning in a custom built Electronics lab and computer suite and will be assessed against industry standards.

Course Commencement Date  Week 2, Term 1 (Thursday, February 6)
Length of Course  1 Year
Day & Time  Thursday 8.40am to 3.10pm
Work Experience  Not compulsory but recommended.
Special Requirements  Students will be required to attend an information session in Term 4 and undertake an interview.
Course Pre-Requisites  Students must be in either SACE Stage 1 or 2 in order to enrol in this course.
Course Pathway  This course is designed for students considering a career in Electrotechnology of Electrical trades. For more information please see: www.skills.sa.gov.au
Certificate II in Engineering - Metal Trade Skills

Registered Training Organisation: TAFE SA
Delivery Site: Thebarton Senior College
Qualification Title: Certificate II in Engineering (Partial)
Course Code: MEM20105
Number of SACE Credits: Up to 40 Credits at Stage 1

<table>

</tbody>
</table>

Course Description
This course is for students wishing to enter a career in Metal trades and related industries. The newly refurbished trade facility at Thebarton provides a modern well equipped workplace that allows training to be delivered in an industrial context. There is a strong emphasis on safety and students will use a range of equipment including horizontal bandsaws, cropping and punching machines, drilling machines, grinders, metal turning lathes, universal mills and associated hand and power tools. Students will learn metal fabrication techniques, use joining - including bolts, nuts, rivets and thread cutting - and modern welding technologies.

Course Commencement Date: Week 2, Term 1 (Wednesday, February 5)
Length of Course: 1 year
Day & Time: Wednesday 8.40am to 3.15pm
Work Experience: 2 weeks in total is required
Special Requirements: Students must comply with all safety requirements. Students with any electronic health-support devices will not be allowed to carry out electric welding operations. Students with extreme asthma are advised against choosing this course.

Course Pre-Requisites: Students have had some workshop experience in a Design and Technology course at Year 10 level or beyond and an interest in practical work and hand skills.

Course Pathway: Leads to possible apprenticeship or employment in the metals, engineering, manufacturing, toolmaking and related industries, including mining trades. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)
Certificate III in Engineering - Metal Trades

Registered Training Organisation
Training Prospects

Delivery Site
Urrbrae Agricultural High School

Qualification Title
Certificate III in Engineering - Mechanical & Fabrication (Partial)

Course Code
MEM30205

Number of SACE Credits
Up to 30 Credits at Stage 1, up to 30 Credits at Stage 2

<table>

</tbody>
</table>

Course Description

This course is for students wishing to pursue a career in the Metals and Engineering trades or related Industries. Students will develop competencies in the Metal workshops using a range of hand tools, portable power tools and industrial machines. The emphasis will include metal machining, lathe and milling machines, modern welding techniques and fabrication techniques. Students will be exposed to computer numerical control (CNC) machinery and reinforce the skills learnt by doing structured work experience. It is a practical based course with regular theory topics.

Course Commencement Date
Week 2, Term 1 (Wednesday, February 5)

Length of Course
Certificate II, 1 year or Certificate III, 2 years

Day & Time
Wednesday 9.00am to 3.25pm

Work Experience
4 weeks in total is required

Special Requirements
Students will need to complete a written application and undertake an interview prior to acceptance in this course. Students will supply their own Personal Protective Equipment.

Course Pre-Requisites
It is recommended that students have workshop experience in a Design and Technology course at Year 10 level. Sound literacy and numeracy skills are essential.

Course Pathway
Following successful completion of this qualification, students may be suitable for an Apprenticeship or employment within the Metals, Engineering, Manufacturing and associated Industries. For more information please see: www.skills.sa.gov.au
Certificate III in **Laboratory Skills**

**Registered Training Organisation**  TAFE SA  
**Delivery Site**  Seaview High School  
**Qualification Title**  Certificate III in Laboratory Skills (partial)  
**Course Code**  MSL30109  
**Number of SACE Credits**  Up to 30 Credits at Stage 2

<td>$300</td>
</tr>
</tbody>
</table>

**Course Description**

By completing this course students will have the opportunity to accrue up to six competency units from the Certificate III in Laboratory Skills. These units provide a broad and flexible package of competencies which meets the needs of laboratory assistants, instrument operators and similar personnel. An opportunity will be provided to successful students who wish to complete a further two units at TAFE SA Gilles Plains campus. By completing the additional units, students will only be required to complete another five units in order to complete the full Certificate III in Laboratory Skills.

**Course Commencement Date**  Week 1, Semester 2 (date to be advised)  
**Length of Course**  1 year  
**Day & Time**  Day to be advised 1.30pm to 4.45pm  
**Work Experience**  Not compulsory but recommended  
**Special Requirements**  Students are required to wear closed toe shoes, have long hair tied back and abide by WHS requirements whilst completing training within the laboratory.  
**Course Pre-Requisites**  Not Applicable  
**Course Pathway**  Further education pathways include completion of the entire Certificate III in Laboratory Skills qualification. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)
Certificate I in **Mining**

**Registered Training Organisation**  Thebarton Senior College  
**Delivery Site**  Thebarton Senior College  
**Qualification Title**  Certificate 1 in Resources and Infrastructure Operations  
**Course Code**  RII10109  
**Number of SACE Credits**  Up to 20 Credits at Stage 1

<table>

<tr>
<td><strong>Additional Costs:</strong></td>
<td>2 excursions, costs to be determined</td>
</tr>
<tr>
<td><strong>Total:</strong></td>
<td>$360+</td>
</tr>
</tbody>
</table>

**Course Description**

This course is aimed at students in Year 10 who are considering a career in mining. It will link students to opportunities in courses such as engineering in Mining, Metallurgy, Civil, Environmental, Mechanical, Petroleum, Chemical, Structural, Geology and Water Resource Management. The course will provide background to the industry, practical sessions include use of communications equipment and GPS for mapping, WHS principles, risk control and sustainable work practices.

**Course Commencement Date**  Week 2, Term 1 (Friday, February 7)  
**Length of Course**  1 Semester  
**Day & Time**  Friday 4.00pm to 7.00pm  
**Work Experience**  No work placement, however students are required to participate in visits to Universities and field trips to mine sites and quarries.  
**Special Requirements**  Students will need to provide steel capped safety boots for field trips.  
**Course Pre-Requisites**  Students need to be undertaking Maths at Stage 1 and 2.  
**Course Pathway**  Course is designed to provide an understanding of the professional pathways available within the Resources Industry. For more information please see:  
www.skills.sa.gov.au
Aviation SACE Stage 2

Course Description
This Industry Pathways Program has been designed to offer students a viable pathway to a career in aviation. Although not incorporating VET units of competency, Aviation focuses on the skills and knowledge necessary to begin a career in this industry.

The Australian Science and Mathematics School has state of the art equipment including an industry standard multi-functional Synthetic Flight Simulator.

The program is a rich and powerful mix of Mathematics, Physics, Physiology, Meteorology, Geography, Psychology and Literacy. Students will be provided with ample opportunities to critically approach and analyse issues for investigations, conventional learning and to complement these with research and practical activities.

Course Commencement Date: Week 2, Term 1 (Wednesday, February 5)
Length of Course: 1 year
Day & Time: Wednesday 2.00pm to 6.00pm
Work Experience: Not compulsory but recommended
Special Requirements: Students will be required to attend an information session in Term 4 and undertake an interview.
Course Pre-Requisites: Students must have passing grades in Stage 1 Mathematics and Physics. Stage 1 students may be considered if their Year 10 grades are at a high standard.
Course Pathway: This course is designed for students considering a career in Aviation. For more information please see: www.skills.sa.gov.au
Certificate II in Tourism

Registered Training Organisation: Hamilton Secondary College
Delivery Site: Hamilton Secondary College
Qualification Title: Certificate II in Tourism
Course Code: SIT20107
Number of SACE Credits: Up to 20 Credits at Stage 1

<table>
<thead>
<tr>
<th>DECD Schools</th>

</tr>
</tbody>
</table>

Course Description

This qualification provides the skills and knowledge for an individual to be competent in a defined range of basic tourism technical skills. Work would be undertaken in an office environment where the planning of tourism products and services takes place, or in the field where tourism products are delivered, or a combination of both. The field includes any destination, local or regional area, tourist precinct, attraction or an onboard form of transportation.

Students who have completed work experience in the Tourism Industry and intend this as their future pathway may be eligible to enrol as a TGSS student and the course will be free.

Course Commencement Date: Week 2, Term 1 (Tuesday, February 4)
Length of Course: 1 semester, two days per week
Day & Time: Tuesday and Thursday 9.00am to 3.15pm
Work Experience: 5 days in total is required
Special Requirements: Interview with the trainers to demonstrate a genuine interest in Tourism industry skill development.
Course Pre-Requisites: Students should have a genuine interest in developing skills and knowledge related to working in the Travel industry.

Course Pathway
Further Education Pathways: Certificate III in Travel
Employment Pathways: Travel Agent, Tourism Operator, Tourism Retail Sales Agent. For more information please see: www.skills.sa.gov.au
Certificate III in **Travel**

**Registered Training Organisation**  Hamilton Secondary College  
**Delivery Site**  Hamilton Secondary College  
**Qualification Title**  Certificate III in Travel  
**Course Code**  SIT30107  
**Number of SACE Credits**  Up to 120 Credits at Stage 2 (Cert II is a pre-requisite and some units are the same so cannot count twice)

**Course Description**

This qualification is designed to build on the core skills and knowledge in the Tourism industry gained in Certificate II in Tourism. The course uses AFTA study materials and students complete the national ATPP examinations for each competency. Students will need to set aside time for extra independent study. Examination re-sits will incur an extra fee.

Students who have completed Certificate II in Tourism can be eligible for TGSS and the fee will be $375.

**Course Commencement Date**  Week 2, Term 1 (Tuesday, February 4)  
**Length of Course**  1 semester, two days per week  
**Day & Time**  Tuesday and Thursday 9.00am to 3.15pm  
**Work Experience**  10 days in total is required  
**Special Requirements**  Interview with the trainers to demonstrate a genuine interest in Tourism industry skill development.  
**Course Pre-Requisites**  Must have completed Certificate II in Tourism. Students should have a genuine interest in developing skills and knowledge related to working in the Travel industry.  
**Course Pathway**  Further Education Pathways: Certificate IV in Tourism  
Employment Pathways: Travel Agent, Tourism Operator, Tourism Retail Sales Agent. For more information please see: [www.skills.sa.gov.au](http://www.skills.sa.gov.au)
Certificate II in **Hospitality** - Kitchen Operations

**Registered Training Organisation**  Hamilton Secondary College  
**Delivery Site**  Hamilton Secondary College  
**Qualification Title**  Certificate II in Hospitality (Kitchen Operations)  
**Course Code**  SIT20307
