We hope that you will be eager to come and join us to study at one of the best schools for International Students in South Australia.

International Programs Offered

The International programs that are offered to overseas students at Brighton Secondary School are:
- Intensive Secondary English Course (ISEC)
- High School Study Abroad Programs
- High School Graduate Program
- Short Term Visits
- Exchange Programs

International students who study at Brighton Secondary School are supported by an International Student Coordinator and Manager, the School Counsellors and highly experienced, caring teachers. Special orientation and pastoral care activities enable International students to get to know each other and to feel welcome within the school community.

Brighton Secondary School

Brighton Secondary School is proud of its motto “Do all things well”. It is a large high school located in a popular beachside suburb west of Adelaide. The school is well serviced by train and bus routes, with a major shopping complex and the beach nearby. Attractive gardens and sports fields surround the modern school buildings.

Name of School: Brighton Secondary School
Address: 305 Brighton Road
North Brighton
South Australia 5048

Distance from City: 12km
Phone: 61 8 375 8200
Fax: 61 8 296 0949
Email: international@brightonss.sa.edu.au
Website: www.brightonss.sa.edu.au
Year Established: 1952
School Population: 1350

Intensive Secondary English Course

The ISEC program is offered in a learning environment that nurtures social cohesion and intercultural perspectives for students before they enter mainstream studies. The ISEC class usually consists of no more than fifteen students, who have a program specially designed to assist in developing their English proficiency, their knowledge of Australia and Australian lifestyle and introductory courses designed to familiarise students with schooling in Australia.

High School Study Abroad Program

Study Abroad Program students usually enrol for six or twelve months and live in government organised and approved homestay accommodation. Study Abroad students can choose from academic or experiential programs suitable for their interests and needs. Many Japanese, German, Chinese and Brazilian students have come to us to study within this program. Their stories can be read on www.brightonss.sa.edu.au/international.

For further information about enrolment in a Study Abroad Program please visit International Education Services at www.internationalschools.sa.edu.au and express a preference for Brighton Secondary School.

High School Graduate Programs

Students who enrol into this program usually want to complete all their secondary studies and possibly their tertiary education in Adelaide or elsewhere in Australia. Many students come from China, Japan and Germany. For students who have a limited command of English, an ISEC (Intensive Secondary English Course) program where students improve their general English language skills while also learning the specialist language of different academic areas is offered. On completion of the ISEC course, students move into mainstream classes with local students while continuing to study ESL (English as a Second Language).

Home stay is coordinated by International Education Services and is supported by the school.

For further details about application processes and homestay services go to: www.internationalschools.sa.edu.au

Student Exchange Programs

A limited number of places in our school are made available to students through reciprocal exchange programs by approved exchange organisations such as:
- Southern Cross Cultural Exchange
- Education Foundation
- Student Exchange Australia
- Rotary
- Lions
Short Term Visits

The school also hosts short term visiting student groups, usually for up to 14 days. While here, students stay with Australian families to experience the Australian lifestyle. This program includes English classes, experiential programs of mainstream lessons and excursions in and around Adelaide. Schools may negotiate with International Education Services to have a two week program at Brighton Secondary School.

Brighton Secondary School manages its own home stay program for short-term visiting students. Our home stay program has been recognised for its high quality and success.

Host families are carefully screened and selected by our International Program Manager who ensures that the best quality of care and safety are provided at all times. Home stay accommodation is available with selected families in locations close to the school. Host families transport students to and from the school and other venues and provide packed lunches and drinks during the school week. Weekend activities are provided by the host families. These often include family picnics and barbecues, visits to the beach (weather permitting), travel into the hills and country areas, especially Australian wildlife parks, or entertainment and shopping complexes.

Any local families who would like to know how to become a Host Family should contact the school on 8375 8200 or email Debbie Parsons at debbie.parsons@brightonss.sa.edu.au

Overseas Teacher Training Programs and Delegation Visits

As a school with a well established reputation for academic excellence and curriculum innovation, we frequently receive requests from overseas visiting groups of administrators and teachers. We have successfully tailored professional development programs for teachers and administrators from Thailand, England, Germany, Brazil, the Philippines and China in the recent past. Programs are flexible and organized according to the needs of the visiting group. Attractive group accommodation packages can be negotiated in the nearby Glenelg and Holdfast Bay tourist areas. Staff groups wishing to access this opportunity should contact the Delegations Coordinator, International Education Services and express a preference for our school as a host.

Individual teacher training programs are also offered via Language Assistance Programs (Japanese, German and French), and teacher work shadow or observation programs within faculties. Home Stay for individual teachers can be supported by the school, and teachers are welcomed into the social and professional network of the school.

Further information about these programs can also be obtained from the school. Email: international@brightonss.sa.edu.au
