DIGITAL DEVICES & LEARNING

Empowering our students to engage authentically in their learning requires access to and use of appropriate and relevant technology.

At Brighton Secondary School we are committed to developing digital citizens who can apply digital skills in flexible and dynamic ways. This includes being able to maximise technology and digital platforms to build their learning and to create new content for a range of purposes.

Years 7 and 10 will purchase a Windows device in 2023 through the school, with other year levels using their existing devices.

By the year 2024, all students will have purchased a Windows device, as follows:

Year	Year level using Windows device
2023	7, 8, 9, 10, 11
2024	All year levels

Purchasing through the school:

- Is cost effective, as you will benefit from SA Government buying power.
- Is easy, since we can offer a competitive price without you needing to shop around.
- Makes servicing and warranty claims easier, as we will manage them for you.
